MEMORANDUM FOR: Assistant Director for Research  
and Reports

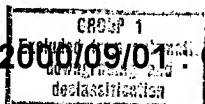

THROUGH : Assistant to DD/I (Policy Support)

SUBJECT : Support for ACDA Census for Arms  
Control Research and Development  
Projects

1. The Central Intelligence Agency is required by Executive Order 11044 of 21 August 1962 to assist the Director of the Arms Control and Disarmament Agency (ACDA) to "develop and keep current a comprehensive and balanced program of research, development and other studies needed to be conducted by or for the Government for arms control and disarmament policy formulation." Since its publication this Agency has sought clarification of the means by which the spirit of the Executive Order could be implemented while at the same time preserving the special security requirements which surround many of this Agency's research and development programs.

2. As a result of these conversations, it has been agreed that the CIA shall provide ACDA with a selected list of published reports bearing directly or largely on designated subjects within the purview of the ACDA as defined by Public Law 87-297, the "Arms Control and Disarmament Act." For the Office of Research and Reports (ORR) the pertinent provision of the Public Law is Section 31 (c) concerning "the analysis of national budgets, levels of industrial production, and economic indicators to determine the amounts spent by various countries for armaments."

The listing should include the title, publication date, publication number, classification, and brief description of contents. The listing will be incorporated in a classified summary of United States disarmament research programs to be prepared by the ACDA and will be updated on at least an annual basis.

4. It is requested that the list be provided the undersigned by c.o.b. 25 January 1963.
